CAPABILITIES STATEMENT

ABOUT US

Arctic IT Government Solutions (AITGS) delivers secure, scalable IT services to federal agencies to help them modernize legacy systems and accelerate cloud adoption.

Backed by Doyon Technology Group (DTG), AITGS leverages the combined resources, expertise, and capabilities of our sister companies, Arctic IT and designDATA. Our **Alaska Native Corporation (ANC) 8(a) company** combines innovation and cultural heritage to drive impactful, mission-focused outcomes, with streamlined federal procurement.

CUSTOMER EXPERIENCE

ANC-owned 8(a) firms are not subject to the standard 8(a) competitive threshold, enabling direct negotiation, tighter control of scope and budget, and a simplified acquisition timeline. Sole-source awards are also supported with the required agency justification for higher-dollar actions.

Transforming Federal IT with a Purpose-Driven Edge

APPLICATION MODERNIZATION

- Reduced Technical Debt
- Seamless Cloud Migration
- Boosted Scalability
- Enhanced User Experience

IT SUPPORT

- 24/7 Help Desk Support
- Cloud & Data Center Management
- Proactive Issue Resolution
- Scalable End-User Services

CYBERSECURITY

- Comprehensive Risk Management
- Real-Time Threat Detection
- Secure Endpoint Protection
- Compliance Assurance

AI STRATEGIC PLANNING

- Define AI Use Cases
- Optimize Data Strategy
- Continuous Improvement
- Policy & Ethics Guidance

WHY PARTNER WITH US

By working with Arctic IT Government Solutions, you gain a faster, lower-friction path to mission delivery. As an ANC 8(a), we may leverage the relevant past performance of sister companies and key management to demonstrate proven capability. Our subcontracting status supports the achievement of Small Business and Small Disadvantaged Business goals, even if size standards are exceeded.

For DoD programs, prime contractors qualify for a **5% incentive** on eligible sub-contracts with Native-owned organizations, stretching taxpayer dollars further.
